As a driven software development student, I am deeply immersed in honing my knowledge and skills in software development. My academic journey has equipped me with a solid understanding of programming languages, including C#,Javascript etc. which serves as the cornerstone of my technical skill set. My skill for problem-solving is matched by an unwavering enthusiasm to translate theoretical knowledge into practical applications. I am looking for opportunities that will allow me to leverage technical knowledge to contribute to innovative projects. I am eager to apply my academic skills in real-world scenarios through internships and collaborative projects.

LICENSES & CERTIFICATIONS

- Azure Fundamentals
- Cloud Computing Foundations
- Cloud Advanced: Architecture and Technology
- Data Management and Analysis
- Introduction to Data Science
- Python Programming Basics
- R for Data Science
- Virtual Cloud Computing
- AI Career Essentials
- Basics of UI/UX

PROJECTS

SQL QUERIES AND WINDOWS GUI INTEGRATION PROJECT

Developed an Online Food Ordering Website
Project Overview: Created a fully functional online platform for ordering cooked meals.
Technical Skills: Utilized HTML, CSS, and JavaScript to build and code the website.
Experience Gained: Enhanced problem-solving abilities and effectively managed project deadlines.

GYM REGISTRY PROJECT

Developed SQL Queries and Windows GUI Integration
Project Overview: Successfully created and managed SQL queries and integrated them with a Windows GUI.
Technical Skills: Demonstrated proficiency in SQL and Windows GUI development.
Experience Gained: Enjoyed the process of linking the SQL database with the Windows GUI, enhancing both technical and integration skills.
